Grobogan, Central Java

Informatics Engineering Graduate with a 3.84/4.00 GPA and a strong technical foundation in PHP and Laravel. Experienced in building web applications, including a centralized data management platform (SiData) and an automated stock prediction system. Proficient in managing MySQL databases, implementing MVC architecture, and utilizing Git for collaborative development. A detail-oriented professional with a proven track record of delivering clean, structured code in government and corporate environments.

## Education Level

---

**Universitas Muhammadiyah Surakarta - Surakarta, Central Java**

Sep 2022 - Apr 2026

*Bachelor of Informatics Engineering, 3.84/4.00*

- Mentored students for 4 semesters in technical modules including Algorithms Programming and Framework-Based Web Development.
- Spearheaded impactful organizational programs and enhanced executive coordination for student welfare.
- Acquired foundational knowledge in Algorithms Programming, Probability and Statistics, and Framework-Based Web Development.

## Work Experiences

---

**Diskominfo SP Kota Surakarta - Surakarta, Indonesia**

Apr 2025 - Jun 2025

*Project-Based Web Developer Intern*

At Diskominfo SP Surakarta, I worked on the backend development of a web-based system for managing and distributing sectoral data from government agencies (OPD) to each urban village (kelurahan). The system supports data input by OPD and filters it based on kelurahan. This experience enhanced my skills in Laravel, role-based access, and data handling in a government setting.

- Engineered a Laravel-based sectoral data management system (SiData) by designing system architectures through Use Case, Activity, and Class Diagrams, effectively automating data distribution from 30+ government agencies to 54 urban villages.
- Developed a modern, responsive UI using Tailwind CSS and implemented core features including Role-Based Access Control (RBAC), automated Excel data processing, and complex Entity Relationship Diagrams (ERD) mapping in MySQL.
- Successfully brought the system to the internal testing phase, ensuring data integrity, performing maintenance for existing modules, and optimizing regional reporting workflows through Git-based collaboration.

**Kalbe Nutritionals x Rakamin Academy - Indonesia**

Sep 2023 - Oct 2023

*Project-Based Data Scientist Virtual Intern*

At Kalbe Nutritionals, I honed my skills as a Data Scientist by tackling real-world case studies and receiving guidance from industry professionals. This experience allowed me to apply theoretical knowledge to practical challenges and deepen my understanding of data science applications in a corporate environment.

- Addressed and resolved business challenges by implementing data-driven solutions and predictive analysis for corporate case studies.
- Analyzed complex datasets using Python and SQL to extract actionable insights, contributing to more informed decision-making processes.

## Organisational Experience

---

**Himpunan Mahasiswa Teknik Informatika - Surakarta, Central Java**

Dec 2023 - Dec 2024

*Vice Chairman*

- Assisted the Chairman in overseeing organizational functions and enhanced coordination among executive members to ensure the smooth execution of initiatives.
- Fostered a collaborative environment focusing on member welfare and organizational advancement.

**Dewan Perwakilan Mahasiswa FKI - Surakarta, Central Java**

Jan 2023 - Jan 2024

*Member of the External Affairs and Controlling Commission*

- Supervised student executive programs with a focus on financial accountability and conducted internal audits to ensure compliance.

## Skills, Achievements & Other Experience

---

- **Hard Skills:** PHP (Laravel), Python, SQL (MySQL), JavaScript, HTML, CSS (Tailwind, Bootstrap), Git, GitHub.
- **Soft Skills:** Leadership, Design Thinking, Teamwork, Communication, Problem Solving
- **Language:** Bahasa Indonesia (Native), English (Professional working proficiency)
- **Certification**  (2024): Google Data Analytics Professional Certificate & Dicoding Tech Courses
